THE OXYCONTIN EXPRESS

The Rise Of Fentanyl: Drug Addiction

Heroin is still a major problem in America; but Oxycontin is known as "Hill Billy Heroine." Dilaudid is known as "Drug Store Heroin." Prescription drugs are the new legal/illegal drug market in the United States. Most heroin users are also using Oxycontin and Oxycodone. Many use Zanex bars (elongated pills) and others Valium. Most drug abusers mix a combination of drugs, which is deadly when mixed with alcohol (a narcotic drug by definition). Some people start out innocent on painkillers due to an accident, but then it's almost always a friend who shows them how to smoke, shoot (inject) or crush their medications to abuse them. The next thing you know that person is addicted to prescription drugs.

When they can't find enough pills, there's usually a place to get heroin. My friend, it's not worth it. Federal mandatory/minimum laws impose stiff prison sentences. Just selling a half dozen Oxycodone pills can land you in prison for 7-years. Watch the Oxycontin Express video above and listen for yourself to the testimonies of broken lives. Here's a heart-touching video sermon titled ADDICTIONS (the testimonies of former drug-abusers is sad... divorce, weekend dads, children without parents, ruined health, et cetera).

The blood of millions of families is on the hands of Florida's leaders for allowing Pill mills to operate for decades. In just the last 6 months of 2008, 50 Florida doctor's carelessly prescribed over 9,000,000 Oxycodone pills. Most of the customer's came from out of state. Drug dealers nationwide came to Florida to stock up, selling the pills for 10 times their cost. Millions of families throughout Kentucky, North Carolina and across the nation were adversely affected. Many "Pill Billies" died from overdose!!!

Heroin hits small-town America

'We're up to our eyeballs in it'

LEXINGTON, Ohio—A costly struggle against heroin rages in the comfy, cedar-paneled home on West Hanley Road, and everyone inside is losing.

The adult sons of Steve and Chris Thomas have stolen more than \$50,000 from their parents' business to support their heroin addictions. The Thomas home is in a lockdown state, with

money and other valuables that could be traded for drugs kept away from the boys. A bolt lock protects the master bedroom.

The Thomases now finance their vending machine business on low-interest introductory credit card offers, switching to new cards every 6 months.

Last week a Richland County judge arraigned Mark, 22, and Matt, 18, on felony drug possession charges. The next day Mark Thomas was caught by his parents using heroin again and, as has happened before, was thrown out of the house. It's a war with no victory in sight.

"I don't know what we're go-

ing to do," Chris Thomas said.

This is but one snapshot of a rising tide of small-town heroin abuse in the Midwest, occurring in tidy little communities with town squares, bicycles on front lawns and American flags flapping in the breeze. Hospitals and drug counselors note an alarming spike in overdoses, and overmatched police agencies are scrambling to address a drug onslaught once deemed the exclusive purview of big cities and longtime addicts.

Another family destroyed by illegally smuggled drugs. How horrible! How can this be happening in America, the land of the free? I mean, where are all these drugs coming from? Do they just materialize out of thin air? The government has spent literally hundreds of billions of tax-payer dollars to fight a non-existent war against drugs. There is NO war on drugs! The

money is being used to finance the continuation of drug-trafficking into the U.S.A. Please keep reading and you won't be able to argue with me. There is no war on drugs! It's all a big scam!

Did you know that 16 billion dollars of our tax money is spent each and every year on the alleged war on drugs? Read Catherine Crier's book, "[The Case Against Lawyers](#)" to learn how lawyers, judges and lawmakers are completely destroying America. Their selling their souls for filthy lucre (and selling us into slavery). Learn how the government is looting the economy at our expense (Like the 59 billion dollars that mysteriously disappeared from the HUD program, then Clinton pardoned the HUD kingpin involved even though the man had been convicted in a court of law. The money was never found!) Read how 13 of the top 24 governments agencies have not been audited for a decade because their financial records are so screwed up (intentionally?). She explains how the alleged war on drugs is a giant waste of tax-payer money and should stop immediately. We are being lied to and cheated by our own government. Read Catherine Crier's Book, it is eye-opening to say the least.

Again, there is no legitimate war on drugs - The war on drugs is a big scam!

If you think it is only a conspiracy theory that the CIA is trafficking massive quantities of opium and cocaine into the United States, you are dead wrong - It is a PROVEN and [WELL DOCUMENTED FACT](#) friend ([Lots more documentation](#)). Let's start with California Congresswoman, [Maxine Waters](#). She has taken trips to drug-infested countries like Nicaragua to investigate and document what our own CIA is doing to [fight drug trafficking](#) into the US, absolutely nothing! Maxine says, "[There is no war on drugs going on in America today!](#)" She is doing everything possible to stop the CIA from further destroying south Los Angeles with tons and tons of drugs being trafficked in at an alarming rate. This is not some nut on the internet saying these things, this is a respectable congresswoman of the United States of America!!! And might I add, I am proud of her for taking a stand (Psalm 94:16)!

Also, Georgia Congresswoman, Cynthia McKinney. By the way, it's a crying shame that there are no men in congress willing to [stand up for what is right](#) as these bold ladies have. I am proud of Cynthia McKinney and you'll see why [HERE](#). Also read [THIS](#). Families are being destroyed all across America (just like the family featured in the tragic article above)! Children are losing their parents and homes! Half the incarcerated people in America are in prison for drug offenses (Catherine Crier addresses this in [her book](#)). Clinton made sure to build many more prisons while in office. Incarcerations more than [doubled](#) while Clinton was in office. Read "[A Prison Nation HERE](#)." What are they planning for? A [police state](#)? Thank God for these admirable women.

Hey, type in the name "Barry Seal" and then the word "drugs" and see what you get. Was [Bush connected with Barry Seal](#)? [Wow!](#) You'll find umpteen articles on the biggest drug-dealer (CIA agent) in American history. He admitted to US judges that he had flown tens of thousands of pounds of illegal drugs into the US for the government. No wonder the CIA had him assassinated. He even explained how he did it. Seal owned several farms in Louisiana. He would fly guns and ammo down to Columbia and then bring drugs back into the US. He would fly over his farms and drop the cocaine-filled duffle bags with parachutes onto his property. Slick huh? Then he flew to [Mena](#) Arkansas to complete his flight. Do you think it is mere coincidence that Clinton became president, after governing one of the most corrupt drug-trafficking states in the country? Do you think it was coincidence that the Bush brothers governed the two border states of Florida and Texas? No way! Where do you think the drugs are coming in? Friend, you have no idea what is going on in this crazy world today.

I want to now introduce you to a man I admire very much, [Michael Ruppert](#). Mike used to work as an LAPD (Los Angeles Police Department) narcotics officer in the late 1970's, trained in narcotics by the US Justice Department. The CIA tried to recruit Mike to traffic drugs with them. When Mike tried to expose the corruption that he saw (the ONLY decent thing to do), he was fired without cause. Mike Ruppert has spent the last 25 years fighting the system, trying to expose the lies and tyranny of the CIA (and many other offices of our government). This is no conspiracy theory, Mike Ruppert has presented over 6,000 documents indicting the US government's involvement in decades of heroin and cocaine drug-trafficking into the cities and towns of the United States. Ecclesiastes 5:8, "If thou seest the oppression of the poor, and violent perverting of judgment and justice in a province, marvel not at the matter: for he that is higher than the highest regardeth; and there be higher than they." —King James Bible

How much more proof do you want that we are being scammed as US citizens by our own government whom we trusted, supported and voted into power? There is no end which can justify the destructive means (drug profits) which have destroyed millions of families across America. It is evil men, greedy evil men and women who are to blame in all this. Just as the Bible teaches in 1st Timothy 6:10, "For the love of money is the root of ALL evil..." If the CIA is hedging up our economy to offset a 300 billion a year

trade deficit, then the government should eliminate the trade deficit. It's greedy corporation (men and women) who are to blame for all this. The Federal Reserve never should have been created. Our government should not be spending borrowed money from the Federal Reserve. Our government is woefully in debt, a debt they created without our permission. America is NOT a democracy friend! I'm not so sure I can honestly say were even a republic anymore. We are headed towards [a totalitarian government](#) I fear.

We should not be paying federal income taxes. In 1914 when the income tax 16th amendment was passed, you didn't pay any taxes unless you made six times the average American salary (which was only \$500 at the time). So unless you made at least \$3,000 a year in 1914, you paid no federal taxes. My how we have been scammed since then. There have been no amendments to the constitution since then concerning taxes. My point is that America has become a nation of scandalous thieves, liars and thugs running our nation. The whole Enron ordeal is pathetic, and the government was in on the whole affair. No one went to prison. The HUD scandal, the Housing and Loan scandal, and umpteen other scandals. Only a fool believes everything he hears in the news.

[Alex Jones](#) is another of my favorite Journalists, he really takes [a stand for our rights](#). I greatly admire this man for his zeal for justice. [Here's his other website](#). Be sure to listen to him on internet radio every Monday through Friday at www.infowars.com

There are literally hundreds of books available on the subject of drug-trafficking in the US. The problem with most people is that they simply don't read. Some are lazy but most people simply DON'T CARE. But they will care when we go to a police state and their looking up the barrel of an M-16. I see it happening this way... Right now, the government is playing with fire, a lot of fire. They are doing on a grand scale what Enron, World Com and many other scum-bucket companies have unsuccessfully tried to do, hide their sins (Numbers 32:23, "...be sure your sins will find you out). Greed and power is an addiction like none other.

These companies want to make money so bad that their willing to "cook the books" in an attempt to lie to the public until the situation hopefully turns better. Often it does not! Our government began overspending after the foolish Federal Reserve System was started in 1914 ("fiat" money they called it, useless ordinary paper with no silver or gold worth). Our government over the decades has spent itself (us) into massive debt, even in spite of all the ridiculous and unconstitutional increases in our taxes. Today, our dollar is worth almost nothing and Uncle Sam is scrambling to hide from the American people what he has done, ran the country into the ground.

The average American takes for granted all that we have, failing to realize that more and more it is only an artificially created splendor. There will come a day when the gravy-train will come to a sudden end. It's just a matter of time before all the drug-dealing and corruption will not patch things up anymore. Social security will run dry. People will start losing their property at an unbelievable rate. Last year alone, property forfeitures were up 316%. Our economy is a great big mirage, like the one in the Wizard of Oz. The little guy behind the curtain is the US government. Do you have any idea what is going to happen when the bubble bursts? Massive layoffs, shortages of food and supplies. Lack of Police and fire protection. Crime will skyrocket. The US will become a Police State overnight with the US military shooting US citizens by the thousands for revolting against the government in anger. Question: don't you think the families of all the millions of dead people from drug-overdoses would have a right to be angry if they found out that the US government was the source of those drugs? Sure they do! END
